DOVE CANYON

To register for Dove Dash:

High Hopes Head Injury Program was the first non-profit charitable brain-injury rehabilitation program in the country. It is a one-of-a-kind organization dedicated to helping brain-injured adults recover their lives. We do not give up on anyone, but rather develop successful solutions for each person. Our program has helped hundreds achieve results far above expectations. Because of our success we have been nationally and locally recognized. High Hopes is celebrating 50 years of service and is looking forward to continued success for the brain-injured community.
